

# Test

Rasmus Guldborg Pedersen

June 2015

# Overview

## 1 Q 1.2: Test process and IEEE 829

# Testing Process

- Planning, control
- Analysis, design
- Implementation, execution
- Evaluating exit criteria, reporting
- Test closure activities

# IEEE 829

<b>Test process</b>	<b>IEEE phases</b>
Test planning and control	Preparation of test
Test analysis and design	
Test implementation and execution	Running the test
Evaluating exit criteria and reporting	Completing of test
Test closure activities	

# When stuff goes wrong

- Error
- Defect
- Failure

# Confirmation & Regression

- Confirmation testing
- Regression testing

# The End

*“Testing shows the presence, not the absence of bugs.”*  
— *Edsger W. Dijkstra*
