Test

Rasmus Guldborg Pedersen

June 2015

Overview

Test Plan

- Outline & communicate the testing efforts
- Estimate time & resources
- Ensure the product meets the requirements
- Metrics to measure & monitor progress

Metrics

The distance between two elements in an arbitrary space.

Metrics

- Measure progress
- Measure quality
- Assist in decision making

Test Criteria

Entry Use case XX has been implemented.

Exit All tests executed without any major defects.

Suspension Major defect detected.

Resumption All known major defects has been addressed.

The End

"Testing shows the presence, not the absence of bugs."
— Edsger W. Dijkstra
